WHAT IS LASER BATTLEFIELD?

Laser Battlefield is a fun and exciting new leisure activity, like a live computer game, its fast paced adrenalin-pumping action all the way! Don't confuse us with 'laser tag' our state of the art laser weapons use the same cutting edge technology also used by the Military for training purposes. The guns use harmless infrared, just like your TV remote and emit realistic combat sound effects and have an accurate range of up to 150mtrs. Because there is no paint and no projectiles, it's safe and suitable for all ages, from six years upwards.

Laser Battlefield equipment is 100% portable, tough, and can be used either indoors or outdoors. The weather doesn't affect play and you have a choice of woodland battlefield locations at which to play.
